

A poster describing the fire management support capabilities that FLIRE project shall deliver to the Local Authorities of Rafina-Pikermi was presented on May, 9th and 10th during the 4th School Festival of Rafina-Pikermi at the location Ochyro in Rafina. The FLIRE presentation was hosted in the booth of the Civil Protection Division of the Rafina-Pikermi local authorities.

The Festival was devoted to the sensitization and training of local youth people to environmental issues, conservation and protection of the natural environment including workshops concerning recycling, forest fire prevention, flood mitigation etc.
